## 📖 BIBLE BACKGROUND:

Leaders come from all different places, and they lead in all different ways. Yes, there are some things all leaders must do in order to be good leaders (like have integrity and character, and communicate with their followers), but there's no cookie cutter leadership profile. Leaders come from all different backgrounds. They aren't all pastors' kids. They didn't all grow up in the church. They aren't all A students—or F students for that matter. Leaders come with all kinds of personalities: introverts, extroverts, task-focused, relationship-focused. And leaders lead in different ways. Some are great at casting the vision from up front and rallying a crowd. Others inspire their teams through notes of encouragement or conversations over cups of coffee. Leaders are different.

Take a look at some of the great leaders in the New Testament. These are people who followed Christ deeply, influenced entire cities and countries, set the church in motion, and even gave up their lives for Christ. Here are some glimpses of where they came from, what their experiences were, and even a little bit of their personality.
