

## WELCOME

Thank you for checking out a free sample from Deep Discipleship. We know you have a ton of options for choosing student ministry resources, so we appreciate you giving us a try. To show our gratitude, we have provided more than a free teaching lesson in this sample. Much more.

We want you to know that every resource we produce in Deep Discipleship centers around a heart for making disciples. But every Christian company says that, right? Let us *show* you.

### WHAT'S INCLUDED IN THIS SAMPLE

---

#### Folder 1—Teaching Samples

- **Large Group/Small Group Guides** In the first folder, you'll find a complete 4-lesson series called "When Life is Hard." Included in that sample series is
  - Sermon outlines with illustrations for your large group meeting
  - Small Group facilitator guides and student guides
  - Breakout discussion questions are attached to the sermon outlines if your large group and small groups meet on the same night.
  - Weekly Parent Communication to go with each lesson.
- **Media Package** A complete media package called "Media and Graphics" packed with
  - Promo/Intro video
  - Bumper video
  - Presentation slides
  - Social media slides and templates
- **Game** Finally, in this folder is a screen game called "Grab & Go" with gameplay instructions and slides.

#### Folder 2—Parent Resources

- **Parent Meeting Guide** In this folder, we've given you a parent meeting guide that walks you through every step of planning and leading a parent meeting.
- **Faith At Home** You'll also find a Faith At Home resource called "Favorite Song." This tool gives parents an easy action step to take towards discipling their kids at home.

#### Folder 3—Leadership Training

- **Student Leadership Team Lesson** Here, you will find a facilitator guide and student guide for one leadership team lesson called "Leaders Are Rooted." If you don't have a student leadership team, the lesson provides a couple of options for different ways you can use this resource in a mentoring situation or as a way to start a leadership team.

#### Folder 4—Discipleship Pathway User Guide

**The Discipleship Pathway** is a powerful tool that walks you or an adult volunteer through the process of discipling a student and is part of the Essential Deep Discipleship plan. You'll find the user guide in this folder that provides a glimpse into the actual resource. This is a tool you will want to make multiple copies of for you and all your volunteers to use with every student.

### Folder 5—Calendars

- **Semester & Monthly Calendars** We've given you two types of calendars to use in this folder.
  - The Semester Calendar comes with a sample for planning out your fall semester. Parents and volunteers will love knowing what's going on for an entire semester.
  - The Monthly Calendar comes with a sample for planning your ministry for the month. We recommend putting a stack of these in the entry to your worship center so the whole church can pick one up. That way, they know what's going on and how to pray for the student ministry. It also gives families visiting your church an easy insight into the youth group.

### CUSTOM FITTING

---

Everything in this sample is completely editable so you can customize it to best fit your ministry and students' needs.

As you work your way through the different tools and resources included in this sample, you will clearly see how committed we are to making disciples. If you are equally committed to Christ's call to *Go make disciples*, then contact us for the complete Deep Discipleship System. This strategy will weave discipleship through every aspect of your ministry.
